### **Fresh Vine and eGive Announce Partnership Agreement**

Fresh Vine, the intuitive online church management solution and eGive, the online giving solution for churches have formally joined in partnership to offer online solutions to each other's customers. This agreement includes a commitment to integrate their software so that church members' online contributions will automatically be posted to the church's Fresh Vine data base.

"Online giving has proven to be a very effective tool for churches to expand contributions" said Paul Prins, president of Fresh Vine. "Our customers will be very excited to have an online giving solution that is integrated with Fresh Vine."

"Fresh Vine can improve our customers' leadership, communications and small group management" said Brad Locke, owner of eGive. "We are looking forward to extending our services to include a state of the art online church management system."

#### **About Fresh Vine:**

Fresh Vine [<http://freshvine.co/>] is online ministry management software that fosters participation. It helps all members of the community to connect and get involved. It supports all ministry and small group activities, including membership, giving, child check-in, services, and ministry/group calendars, events, attendance, and emails. Use the power of Fresh Vine to nurture and grow your ministry.

#### **About eGive:**

eGive [<https://www.egive-usa.com>] provides Churches with a complete turnkey electronic solution for collecting offerings that is easy, efficient, cost effective and increases giving. In addition to increasing donations, the deposit preparation time and bookkeeping burden on Churches is reduced and the collection process efficiency is improved. eGive pays for itself, decreases the burden on the Church and increases, speeds up and evens out cash flow.
