For Immediate Release

Further Improved Childrens Check In Experience

As customers have begun using the most recent version of our Check-In application, there were a few minor upgrades that we made to further improve their experience. Based on feedback from our users we have implemented some meaningful improvements that will ensure that each kiosk stays more frequently synchronized with their Fresh Vine account, and to make the experience of using the application more intuitive and straight forward.

For all of the release notes: <http://status.freshvine.co/post/34697656180/check-in-v0-5-2-released>
This marks version 0.5.2 of the Check In application

About Fresh Vine:

Fresh Vine [<http://freshvine.co/>] is online ministry management software that fosters participation. It helps all members of the community to connect and get involved. It supports all ministry and small group activities, including membership, giving, child check-in, services, and ministry/group calendars, events, attendance, and emails. Use the power of Fresh Vine to nurture and grow your ministry.
