Minor Tweaks to Check In System

A few minor upgrades have been made to the Check-In application. We recommend that you update your kiosks today. The revisions focus on helping Fresh Vine provide better customer support, and removing some testing code that had made it into the production release. See the full release notes: <http://status.freshvine.co/post/35838745226/check-in-v0-5-3-released>

This marks version 0.5.3 of the Check In application.

About Fresh Vine:

Fresh Vine [<http://freshvine.co/>] is online ministry management software that fosters participation. It helps all members of the community to connect and get involved. It supports all ministry and small group activities, including membership, giving, child check-in, services, and ministry/group calendars, events, attendance, and emails. Use the power of Fresh Vine to nurture and grow your ministry.
