

4th February 2013  
Minneapolis, Minnesota  
For Immediate Release

### **Improvements on our Recent Release**

This release is focused on dealing with improvements and fixes that have been created since the release of Fresh Vine version 2.3. We've had a few issues come up when users have attempted to remove an item or add a profile photo that we could not completely resolve. Improvements have been made to the relationship management, group membership.

If you are interested in the full details on this release please see the release notes: <http://status.freshvine.co/post/42301883178/version-2-3-1-released>

#### **About Fresh Vine:**

Fresh Vine [<http://freshvine.co/>] is online ministry management software that fosters participation. It helps all members of the community to connect and get involved. It supports all ministry and small group activities, including membership, giving, child check-in, services, and ministry/group calendars, events, attendance, and emails. Use the power of Fresh Vine to nurture and grow your ministry.
