

9th March 2013  
Minneapolis, Minnesota  
For Immediate Release

### **Minor Bugs Fixed with Version 2.3.2**

This release corrects several small issues that our customers have discovered. They include:

- Single parent families correctly created with the Concierge system.
- Addresses with apostrophes no long include undesired slashes.
- Email image selector now working correctly in Firefox running Windows.
- Email Status correctly resets upon changing the email address.

Known Issues that we're working on include some issues with embedding and linking to Podcast media, and inability to add/upload images from iOS devices.

#### **About Fresh Vine:**

Fresh Vine [<http://freshvine.co/>] is online ministry management software that fosters participation. It helps all members of the community to connect and get involved. It supports all ministry and small group activities, including membership, giving, child check-in, services, and ministry/group calendars, events, attendance, and emails. Use the power of Fresh Vine to nurture and grow your ministry.
